## HOLT JCB - AVAILABLE TO SUPPORT YOUR BUSINESS

Dear Customer,

In these unprecedented times the team at Holt JCB are doing everything possible to protect the health and well-being of our valued employees, business partners and customers.

We want to reassure you, our customers, that we remain open and committed to supporting your business. Holt JCB provides essential and direct support to the government, defence, utilities, construction, waste and recycling, power generation and the hire industries; all playing a vital part in keeping the country and economy moving during these times.

Whilst we remain operational, from 1st April we will be operating with a reduced structure, with services from Andoversford, Bodmin and Blandford depots being managed from our other depot locations. We will continue to provide engineering services in these areas and are well equipped to deliver parts stock to our engineers and customers alike. We have access to next-day delivery courier services which will assist in minimising travel and limiting exposure to contact. You can also access our [online parts store](#).

JCB World Parts Centre remains fully operational, enabling us to support customers with genuine JCB parts and our highly skilled engineers remain available to service your business.

Please continue to contact your local depot through the usual contact numbers and we will assist with your requests, including our 24 hour emergency support, throughout the South West of England and South Wales. Whilst we remain available we ask for your assistance in protecting our employees and honouring the 2 metre social distancing guidance.

We continue to provide our customers with new and used machines, with the sales team being on hand to support you with your machine requirements. We also have [finance packages](#) available for new and used machine purchases. Should you wish to take advantage of these offers, please contact your [local sales representative](#).

Thank you for your continued support during this time. We hope you and your families remain safe and healthy through the Covid-19 pandemic.

Kindest regards,

**Andrew Shields**
